

# ROLLOVER TRAINING TANKER SEMI TRAILER

## *Teacher Of The Class*

**curious for better.**

## ***What curiosity means to us, A better future.***

The unique reason that the human "bring into being" is curiosity. Curiosity is the first "set a foot on the moon". Because curiosity; to realize a better and more beautiful future, ask questions, try to understand, produce innovative solutions, explore and never give up. It always takes us a step further.

Our job is always to move your business "one step forward". That's why we're curious. We recognize the needs of the trailer and superstructure equipment sector "before needs appearance" and produce innovative, user friendly and efficiency based products. We dominate the technologies that can go beyond your expectations. Due to our curiosity, we have changed the habits of the sector with every new project we made. We have broken grounds; but we have never been curious about being ahead only with the numbers.

The quality documents we have obtained being a catalyser that enable us to produce new technologies, make progress and be more curious. We curious not just about our sector, we curious about the whole world. For the nonce we are in 3 continents. We are constantly building strong values and collaborations for all of our stakeholders by producing special solutions for the needs of new geographies day by day.

Curiosity means to us not only innovation, engineering and technology. It means to us more beautiful and profitable day for the future.

## ■ ROLLOVER TRAINING TANKER SEMI TRAILER

## Teacher Of The Class

Rollover Training Tanker with a total capacity of 38 thousand liters, 5 compartments, aluminium, conical section, suitable for the calculation of static overturn stability R111, which is designed as a training tanker from the beginning of the project to the last stage of installation; it shows practically possible rollover the vehicle while driving, risks of accidents filling and discharge risks. These trainings give great experience to the drivers who take the roads as a **“Teacher Of The Class”** in order to prevent the loss of life and property in the traffic and make safer transportation.
